Full-Stack Developer | React.js | Node.js | Python | Computer Science Student

PROFILE SUMMARY

- **Computer Science student** with a passion for full-stack development and problem-solving.
- **Proficient in** React.js, Node.js, and MongoDB, with hands-on experience building dynamic web apps and secure backend systems.
- **Eager to** contribute technical skills to innovative, high-impact projects and learn from industry leaders.

EDUCATION Sukkur IBA University   Sukkur, PK

Bachelor of Computer Science   **Expected Aug 2026**

CGPA: 3.70/4.00

Scholarship: Sindh Talent Hunt Program (STHP) — Full scholarship awarded for academic excellence

Relevant Coursework: Data Structures and Algorithms, Web Engineering, EAD (Enterprise Application Development), Object-Oriented Programming, Database Management Systems, Discrete Math, Probability and Statistics, Linear Algebra, Calculus, Machine Learning

SKILLS

- **Frontend** - React.js, JavaScript, HTML, CSS, Tailwind CSS
- **Backend -** Node.js, Express.js, JWT
- **Databases -** MySQL, MongoDB
- **Languages -** JavaScript, Python, Java, C++
- **Python Libraries** - Pandas, NumPy, Matplotlib
- **Tools -** Git, GitHub, Postman, Nodemon, Multer, Cloudinary

EXPERIENCE/PROJECTS

Portfolio Builder Web App | Tools: React.js, Tailwind CSS, JavaScript, HTML, CSS
- Developed a dynamic portfolio web app with editable sections for profile, cover image, logo, about, skills, projects, and contact.
- Implemented a theme selector and local storage for data persistence across sessions.
- Built an intuitive, responsive interface with seamless navigation and customization features.
- Link: https://github.com/shahvezjumani/Portfolio_builder_web_app

Backend Development Project | Tools: Node.js, Express, MongoDB (Atlas)
- Built a complete backend with secure authentication (JWT), file uploads (Multer & Cloudinary), and clean API design.
- Developed features like users, videos, comments, likes, playlists, and subscriptions with pagination and aggregation.
- Tested APIs with Postman and also used Nodemon for auto server restart.

Personal Portfolio Website | Tools: HTML, CSS
- Built a visually appealing personal portfolio website with pure HTML and CSS.
- Showcased projects, skills, and achievements in a structured, easy-to-navigate layout.
- Focused on clean design principles and cross-device compatibility

- Link: https://github.com/shahvezjumani/Personal-Portfolio-Website

Library Management System | Tools: Java, Java Swing, MySQL, ER Diagram

- Built a desktop-based library management system with a user-friendly GUI using Java Swing.
- Utilized MySQL for data storage, with a fully normalized database design for efficiency and integrity.
- Applied OOP principles to create a modular, scalable, and maintainable codebase
